Available January - August 2019

## Education

---

### Northeastern University

**Boston, MA**

*B.S. in Computer Science*

*September 2016 - Present*

*College of Computer and Information Science*

*GPA: 3.6 / 4.0*

- Dean's List
- Relevant Courses: Computer Systems, Objected Oriented Design, Programming in C++, Algorithms and Data Structures

## Skills

---

- |                     |  |
|---------------------|--|
| <b>Languages</b>    | Proficient in: Java, Python and C++ for Object Oriented Programming<br>Familiar with: HTML, CSS, JavaScript, Go, C, Bash |
| <b>Technologies</b> | Proficient with: Bash, Git, Linux, Boost C++ Libraries, Selenium<br>Familiar with: Vue, NodeJS, Docker, SQL, Apache2     |
| <b>Other</b>        | Proficient with: AGILE (SCRUM), JIRA   |

## Work Experience

---

### Thermo Fisher Scientific

**Franklin, MA**

*Software Engineer Co-op*

*January 2018 - June 2018*

- Designed and implemented components in a SCRUM environment for a new low-cost air monitoring software platform to improve air quality in developing countries
- Created generic Linux I<sup>2</sup>C drivers to allow easy management and usage of multiple I<sup>2</sup>C devices
- Assisted in selecting tools to improve developer communication, operations, and productivity
- Improved, refactored, and extended legacy C instrument firmware to improve performance and add features for customers
- *Technologies used: C++11, Linux, Boost C++ Libraries, C, Git, I<sup>2</sup>C, SPI, Angular, NodeJS (Webpack), HTML, CSS*

## Personal Projects

---

### Tabulate

*In Progress*

*[github.com/alecge/tabulate](https://github.com/alecge/tabulate)*

- Created a Chrome extension in JavaScript to easily manage tabs across workspaces and windows
- *Technologies used: JavaScript, HTML, CSS*

### WWII Enlistment Visualizations

*In Progress*

*Contact me for source code*

- Created python script using selenium to scrape and transform publicly searchable WWII enlistment records from [archives.gov](https://archives.gov)
- *Technologies used: Python, JavaScript, Docker, Selenium, NodeJS, HTML, CSS*
